

On behalf of the organizing committee, it is with great pleasure that I announce that the Chimie 2020 conference will be organized in the University of Liège on the "Liège Sart Tilman" campus from 27<sup>th</sup> to 29<sup>th</sup> January 2020. The website is available at the link:  
<https://chemom2020.sciencesconf.org/>

This annual conference aims to bring together academics and industrials to discuss about the progress in chemometrics, from the effective collection of information based on experimental designs to the analysis and modelling of data without disciplinary restrictions (chemistry, biology, biochemistry, life sciences, pharmaceutical, medical, metabolomic, agri-food, cosmetics, etc.). Pre-conference seminars allowing to discover or consolidate knowledge in the field of chemometrics will be held on 27<sup>th</sup> January 2020 on the same campus.

In advance, I thank you for your participation and I remain at your disposal for any further information

Eric Ziemons

Chair of the organizing committee of Chimie 2020

CIRM - University of Liège
